TIPS - The Technology Feed Vol 5, #8 (May, 2006)

...maintained by Jeffrey L. Jones, Site Admin, last updated 8/21/2006

Welcome to the 8th and final edition of **TIPS, The Feed**, for 2005-06! This accumulator contains blog content created by **Technology Resource Teachers** from the **Office of Instructional Technology**, covering a variety of topics and interests concerning the integration of technology into instruction.

TIPS - The Editor's Desk

Brief musings on the implementation of technology integration in Fayette County Schools...from the Office of Instructional Technology

...from the desk of Jeffrey L. Jones, Site Admin

Wednesday, May 03, 2006 3:31 PM: It's the end of the year!

Although the year is winding down, the tech office is still hitting on all cylinders! Here are a few of the things to which we're paying attention....

- **Program of Studies:** This latest piece of legislation is slated to change what we teach, and what we expect our students to learn! Technology is a significant part of it, and the Office of Instructional Technology is working on their piece, and is coordinating - like never before - with the IAKSS content area specialists how best to integrate these goals into Fayette County's curriculum framework!
- **STLP Competition:** Lexington hosts this first state-wide Student Technology Leadership Program festival and competition May 11th and 12th. Fayette County figures prominently - both in student representation, and technology resource teacher support!
- **The Technology Enhanced Classroom Conference** (<https://edtech.fcps.net/tec/>): Fayette County hosts, and provides much of the content for, this wonderful professional development opportunity serving the entire Kentucky teaching community! There are still a few seats left...take a look and see if you might like one!
- **The Point/Fayette County Forums/Sharepoint:** All of the district's e-communications and content management platforms will be changing in the next months. We want your help! Tell us what you need, and how you'd like things to work next year!

But, even we will be leaving for a break in June. As you do so, we wish you the most restful of summers, and look forward to serving you again this fall!

STLP in FCPS

A discussion of STLP activities, issues, and projects in Fayette County Schools.

...from the desk of Paula Whitmer

Monday, May 01, 2006 9:46 AM: Great year in STLP!

It has been a fantastic year for Fayette County's STLP! We have welcomed many new teachers and students into our program this year! Take a moment and thank your students and administrators for all they have done to support technology in your school this year!

I want to thank each of **you** for all you've done to support STLP. You make the difference in your students' lives! I consider it a great privilege to work with you and your students. Have a wonderful summer and get some well deserved rest! See you next year!

This blog entry apparently has been removed...

Wednesday, May 03, 2006 4:20 PM: New uses for content management!

Here are a few of the offices/projects which are leveraging this exciting new technology!

- In its assault on the new **Program of Studies**, Jack Hayes and the Office of Student Achievement have pressed the Fayette County Sharepoint space into use in the materials development!
- **GRADE/GMADE**, and other testing scores and data entry, are being contributed and managed through Sharepoint-posted spreadsheets. The **Office of Data, Research and Assessment**, and the district Mathematics coordinator, are exploiting this new technology!
- **Reading First** is placing instructional resources in their Sharepoint site!
- Elementary coordinator Lisa Stone used her space to post KCCT-like assessment documents!

This capability continues to grow...let us know how we can help!
